

Montessori Tutor Required

We are looking for a Montessori teacher to support us in our Home Education of three children aged 12, 10 and 8 years.

- Our eldest attends an online school, she is self-directed but will require some support in areas.
- Our middle child engages well with Montessori materials and we are looking very specifically for guidance for her as she has asked for more Montessori in her life.
- Our youngest attended a Montessori nursery and requires some additional support with reading.

We have a variety of Montessori materials in the house and are happy to invest in more as the need arises.

We are ideally looking for someone kind, engaging and fun in the first instance who can attend in person at our home in Havant, Hampshire. Alternatively, we are open to receiving online support. The applicant will need to be qualified or in training at the elementary level, hold a current DBS and able to provide references.
