

## **Montessori Tutor for English Required**

I am a home educator looking for a Montessori tutor who can teach our son right up until GCSE for English. He is now 10 and has been home-educated since he was 5 years old.

We live in Bradford, West Yorkshire and are looking for one or two sessions per week of in-person or online tutoring. The focus of the sessions will be English but our son responds better with topics around science, history and geography.

The applicant will need to be Montessori qualified or in training at the elementary level, hold a current DBS and able to provide references.
