The Montessori Society was founded 3rd January 1934 to promote the principles and practices laid down by Dr Maria Montessori herself and to preserve the integrity of her life's work. Since then the Society or AMI UK as we are also known, has continued in its role - to impact adults for the benefit of children.

In the UK, the Society enacts the [AMI](#) vision to “connect Montessori to the world” by working to:

- Keep information about Montessori education freely available.
- Keep Montessori practice refreshed and relevant for teachers.

To carry out its mission, the Society offers membership to everyone. Among our members are teachers with and without Montessori training and practitioners in the related fields of psychology, pedagogy and neuroscience. Many of our members are also parents.

Society members are people from all walks of life who have one thing in common - they are inspired by Dr. Maria Montessori's philosophies on human development and the path she illuminates to harmonious living.

The Society is an affiliate of the Association Montessori Internationale (AMI), an organisation founded by Dr. Montessori in 1929 and dedicated to promoting Montessori education globally.

The AMI Head Office is located in Amsterdam. The building was acquired by Dr. Maria Montessori and Mario Montessori, they lived and worked there until their respective deaths in 1952 and 1982. The house now preserves all traces of their work, documents, books, published and unpublished lectures.

The building which is open to visitors by appointment, features Dr. Montessori's study, a materials room and an archival library.

Our board consists of education professionals. Each year we welcome nominations for the General Purposes Committee. Elections take place at the Society's Annual General Meeting.

Discount on books by and about Montessori

The Society carries a comprehensive range of titles for parents, carers, teachers and students. Orders may be placed through our online bookshop for postal delivery.

Dr. Montessori's own writings are supplied to the Society by the Montessori-Pierson Publishing Company. This collaboration supports the family's commitment to uphold and further the Montessori movement.

The Montessori-Pierson Publishing Company was started by the heirs (the 11 great-grandchildren) of Maria Montessori in 2006.

The name stems from the fact that Mario Montessori was married to Ada Pierson who always stood beside him and Maria Montessori.

The annual net result allocated to Montessori-Pierson Publishing Foundation will virtually all be paid to Association Montessori

International (AMI), the association Maria Montessori set up herself in 1929 to safeguard her legacy and work.
